Gardening Is Good for the earth, and it is good for you!

Studies show that digging
in the dirt to create an
edible or a flower
landscape has many
physical and mental health
benefits!

“Planting flowers and vegetables can
reap bountiful bouquets and delicious
harvest for your dining table. But did
you know gardening also can do
wonders for your well-being?

1. Gardening can build self-esteem.
2. Gardening is good for your heart.
3. Gardening reduces stress.
4. Gardening can make you happy.
5. Gardening can improve your hand strength.
6. Gardening is good for the whole family.
7. Gardening can give you a boost of vitamin D.
8. Growing your own food can help you eat healthier.
